## PERSONAL PROJECTS

### Skill-Nexus (04/2025 - 07/2025)

- Developed an AI-powered job recommendation system that matches user resumes with job listings scraped from LinkedIn and Naukri.
- Utilized advanced NLP techniques and machine learning algorithms to rank and recommend jobs based on user profiles.

### Sketch to Image Generator (10/2024 - 12/2024)

- Built an AI-powered web app that converts user sketches into realistic images using a third-party image generation API (via secure API key).
- Integrated REST API endpoints for real-time image rendering and handled API authentication, errors, and rate limits.

### Twitter (X) Clone (05/2024 - 07/2024)

- Built a pixel-perfect frontend clone of Twitter (X) using modern web technologies like React.js and Tailwind CSS.
