WORK EXPERIENCE

Traning
Gradious

02/2025 - Present

Gained experience in logical thinking and tackling problems.

- Data structures and algorithms (DSA).

PERSONAL PROJECTS

Skill-Nexus (10/2024 - 02/2025)

- Developed an AI-based job recommendation system using Python, Flask, MySQL, Selenium, BeautifulSoup, and NLP (spaCy, scikit-learn) that parses user resumes, scrapes job listings from platforms like LinkedIn and Naukri, and intelligently matches them based on skill relevance to recommend the most suitable jobs.

CodeMemory (03/2025 - 05/2025)

- Built CodeMemory, an AI-powered coding assistant using the MERN stack (MongoDB, Express.js, React.js, Node.js) that stores, retrieves, and recommends code snippets intelligently based on user queries and past usage, enhancing developer productivity.

EDUCATION

B.Tech
Ace Enginerring College

06/2022 - 06/2026   *Hyderabad,INDIA*

SKILLS

DSA   Python   C++   Web Development   AI, ML

Git & GitHub   SQL

ACHIEVEMENTS

Completed 100 Days of LeetCode Challenge

Solved 100+ DSA problems across multiple platforms

Proficient in C++, Java, Python, and Full-Stack Development

CERTIFICATES

Python Essentials (03/2023 - 07/2023)
Cisco Networking Academy

Computer Networks (05/2024 - 08/2024)
Cisco Networking Academy

LANGUAGES

Telugu
Native or Bilingual Proficiency

English
Professional Working Proficiency
